Requirements/Notes:

A | Navigation

To underline Vermont Castings' premium brand status, a few special identifying elements have been added to the navigation.

The first product heading is "Stoves" in order to showcase the unique cast-iron craftsmanship of these signature products.

The Vermont Castings navigation also features a "Customer Stories" link. Customer loyalty and excitement are a large part of what makes the Vermont Castings brand unique. This link will give prospective customers a chance to see how other proud VC owners use and enjoy their stoves and fireplaces, etc.

Requirements/Notes:

A | Homepage

The Majestic brand homepage is shown here as a representative sample. From a wire-framing perspective, all 3 brand sites will have a similar homepage.

Color, type, layout and other visual elements will distinguish all three brand sites.

A visual navigation system makes it easy for site visitors to select a category for further information.

Three Sizes Available

A size to fit any room — the SSW40 provides a robust fire perfect for heating larger spaces while the SSW30 is ideal for any room. The SSW20 is perfect for warming cabins, cottages or other small spaces.

Design Options

Choose the right style for your home — The SSW20 is available with a traditional flat top design. The SSW30 is available in both flat top and lovely step top design as well as the choice of cast iron legs or contemporary pedestal. The SSW40 features the step top design as well.

Air Wash Manifold

Exceptionally clean glass — preheated air is dispersed downward to shield the glass from soot particles for a clear view at all times.

Panoramic Viewing Area

Enjoy the view of dancing flames — the clean-front glass door provides an excellent view that friends and family will love.

Limited Lifetime Warranty

Guaranteed to last — Vermont Castings prides itself on producing beautiful hearth systems that are made to last.

SIT Total System Control

Controls at your fingertips — Adjust both fan and flame levels with one convenient handheld remote. The Total System Control module also offers thermal shutdown and a childproof lock.

Variable Speed Fan

Maintain even, precise temperatures — The stove's blower fan offers three speed settings to help you evenly distribute hot air throughout your room.

4-Piece Split Oak Log Set

Authentic look — The Radiance® direct vent stove features a remarkably realistic 4-piece Split Oak log set. The added level of detail brings rustic warmth and charm to your décor.

Proudly Made In Vermont

Signature Vermont Castings style — The tradition of quality cast iron lives on in these direct vent gas stoves, which feature the unique detailing and solid construction that Vermont Castings is known for.

Reduced Clearances

Flexible installation options — These direct vent gas stoves offer simple venting options that require less clearance, so they are perfect for smaller spaces.

Operable Front Doors

Open-door viewing — Simply swing open the two front doors for an unobstructed look at the Radiance® stove's realistic gas flames.

As Efficient as a Wood Burning Stove

Up to 14 hours of continuous heat — Enjoy all the home-heating benefits of a wood-burning stove plus the wide-open flame viewing of a fireplace.

Design Options

Style to match your décor — Choose the cast iron face kit or the latticed cast iron grills for stunning style featuring handcrafted details.

Zero Clearance

More flexible installation options — Zero clearance design gives you the flexibility to add a fireplace to any interior wall. All you need is room for proper venting.

Ceramic Glass Window with Air Wash

Clear, wide view — The ceramic glass window provides excellent fire viewing, while the air wash system helps keep the window clear of soot while you're heating.

Arched Cast Iron Doors

Fine craftsmanship — Arched doors showcase Vermont Castings signature craftsmanship, while their air-sealed design promotes excellent combustion for maximum heating potential.

EPA Phase II Certified

Eco-friendly performance — With 2.5 g./hr particulate emissions, this eco-friendly catalytic fireplace is certified to meet EPA requirements. It even meets the stricter Washington state emissions standard.

Exclusive Total Signature Command™ System

Control at your fingertips — Total Signature Command™ delivers electronic ignition with battery back up, so you can get a fire going even when the power is out. The full-function remote places all the various options at your command from anywhere in the room.

True Clean Face Design with Hidden Controls

Large viewing area — A louver-less facing adds nothing to obstruct your sight line, so you get the largest viewable area possible. Hidden controls help keep the focus on your fire, staying out of sight when not in use.

ClearView Ceramic Glass

No glare from any angle — The ceramic glass viewing window offers durability while its glare-free design lets you observe your flames from a wide range of angles.

Dual Burner with Rear Shutdown

Reduced heat for ambiance — This added level of control allows you to set just the right mood anytime. Switch off the rear burner for a gentler flame and less intense heating.

Accent Lights

A showpiece for your home, year-round — The built-in lighting system is artfully placed to showcase your hearth throughout all four seasons.

American LedgeStone Firebrick and Large, Full Log Presentation

Unique and authentic interior look — American ledgeStone gives this fireplace its own distinct character, while the full log presentation adds depth to your fire-viewing experience.

Decorative Fettle Grate and Andirons

VERMONT CASTINGS EXCLUSIVE — Featuring our signature cast iron construction, these handcrafted details bring the authenticity and overall look of your fireplace to the next level.

5 Burners and 990 sq. in. of Total Cooking Area

Enough room to grill 36 burgers at once* — With this much room, you can sear steaks on one side of the grill while grilling vegetables at low temps on the other side. Perfect for family gatherings or parties!
*Based on approximately 4" diameter patties.

102,400 Total BTUs of Power

The power to cook a greater variety of foods — With a BTU Range of up to 102,400, you can achieve the results you want for any kind of food, from seared sirloin to tenderly grilled vegetables.

104 BTUs per sq. in.

Precision control, year round — At 104 BTUs per square inch, the 501 Series offers the ideal rate of power for the most even and precise grilling. The grill will heat faster and you'll have more precise control, — even in colder climates!

15,000 BTU Side Burner Included

Stovetop cooking right at the grill — Reduce trips to and from the kitchen and cook everything right at the grill.

20,000 BTU Rotisserie Burner and Kit

Convenient, hands-free cooking — Lock in juices and flavor for slow-roasted, flavorful results. Our hexagon rod is designed to easily handle foods like large turnkeys. The counterbalance keeps rotation consistent for even cooking.

304 True Stainless Steel Construction

Top-to-bottom quality you can count on — this superior grade of stainless steel resists rust better than grills made with lower grades of stainless steel. Plus, they offer a sleek, modern look.

Available as a Built-in Model

Custom Look — Family and friends will love gathering around this stunning addition to your outdoor decor.

Requirements/Notes:

A | Learn & Inspire

For Vermont Castings and Majestic brands, this section of the site falls under the heading "Learn & Inspire".

For all brands, this section contains hard-hitting content detail that serves the goals of each brand. The information presented helps forge an emotional connection to the brand.

For Vermont Castings, this involves understanding the brand's legacy and demonstrating how its values translate into innovative products that fit well in a variety of home settings.

For Majestic brand, it involves restating the quality and dependability that goes into each product. As the site visitor discovers each product, they are able to develop a higher level of trust in what Majestic stands for.

Monessen customers are looking to make a smart purchase, so the link for this brand simply states "Help Me Choose".
